

THERE ARE MANY TYPES OF QUESTIONS

????????????????????????????

BELOW ARE SOME WAYS TO CODE THEM

- RS = Research

If I did some research, I could find out the answers to some facts that would help me answer my question(s).

- D/W = Discussion/Wondering

Talking about my question and hearing the ideas of others will help me think about this and understand it better. I want to know what others think. There won't be one answer.

- A? = Maybe my question will be answered later in the text. I can make a prediction here and hope the book will let me know.

- VW? Vocabulary Word

What does that vocabulary word mean? If I knew the word, I would understand the meaning of the sentence better.

- Huh? = I'm confused.

Maybe someone can help explain this to me.
